About Us

With a commitment to offering only the highest quality of care to our patients, Ayatal Healthcare is set up to meet the rising healthcare needs across the UK by providing cost-effective medical consultancy, diagnostics services, limb lengthening, limb reconstruction, and other general medical services.

We have built up an exceptional and extensive multi-disciplinary team with only one goal, to provide outstanding care to every patient. Our innovative workforce and modern facilities are positioned to meet the diverse healthcare needs across the country without leaving out vulnerable patients.

At AYATAL Healthcare, we take our time to listen to every patient's concerns and provide the best possible medical and psychological care that encourages the doctor-patient relationship. More so, we take pride in playing an important role in treating illnesses and promoting health across the UK and at the Centre of our medical services are compassion, dignity, and respect for every patient.

Our Vision & Mission

Our Vision

To become the leading healthcare centre across the UK offering cost-effective and the highest standard of patient-centred medical services.

Mission Statements

Our mission is to provide high-quality healthcare to every patient while maintaining their health, wellbeing, and dignity.

We are also committed to making medical services available at the most affordable rates to every patient. At Ayatal Healthcare, we believe healthcare is for everyone!

Our Values

Our core values run through everything we do
and they are the basis of our motto,

“ Healthcare For Everyone. ”

- ✓ High-quality Healthcare
- ✓ Cost-effective Healthcare

Medical Consultancy

01

We are a specialist healthcare consultancy where patients enjoy the consultancy services of the UK's most experienced consultants.

02

Our purpose is to help every patient cater to their most challenging medical needs by providing them with director-level consultants at the same price for a junior from the traditional consultancies.

03

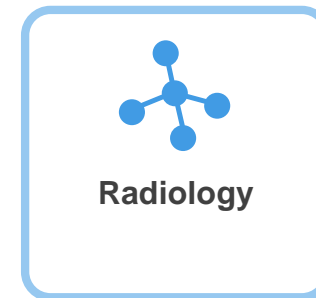

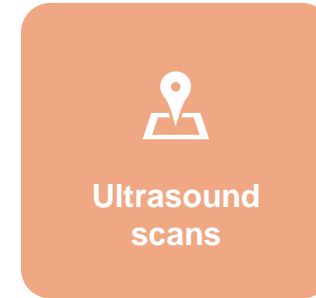

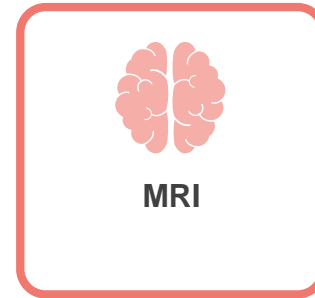

The philosophy of our consultancy is unique – we don't employ staff, instead, we draw from our large pool of associates to create custom-made teams subject to each client's need. Our consultancy services are always tailored to the unique needs of each client and each project, more so, we only employ senior consultants with extensive and directly relevant industry and consulting experience.

04

Our approach to staffing projects and our size have made it possible for us to deliver projects at a significantly lower cost than the larger consultancy firms. With our commitment to transform health and social care across the UK and provide healthcare for everyone, we continue to deliver the best consultancy services at affordable prices to our patients.

Diagnostic Services

Using the latest equipment available in the healthcare industry and providing our patients with world-class diagnoses, we are building our reputation as a leading diagnostics centre in the UK.

Limb Lengthening & Reconstruction

Our group of internationally acclaimed orthopaedic consultants caters to both adults and children who require limb lengthening or reconstruction to replace a missing bone and to lengthen and/or straighten deformed bone segments.

At Ayatal Healthcare, we understand that undergoing bone-related medical treatment can be daunting, which is why our focus is to minimise pain and get our patients back to full fitness as quickly as possible.

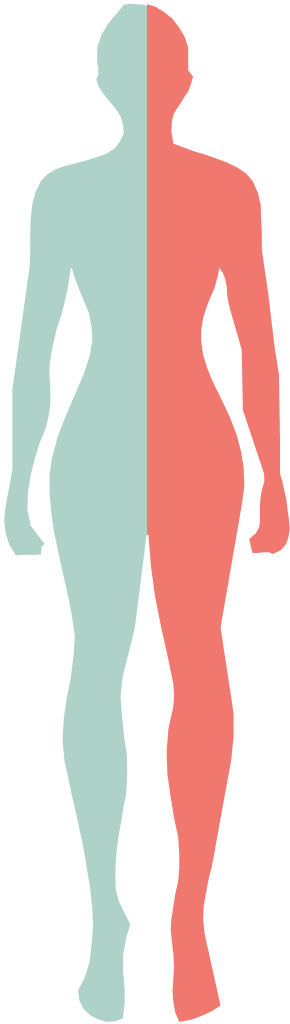

Our orthopaedic expertise include:

- oral and maxillofacial
- pain management
- rheumatology and other orthopaedic subspecialties

Our dedicated multi-disciplinary team ensures that our patients get a quick diagnosis and a custom care plan for either sport-related injuries or bone wear and tear.

Our General Healthcare Services

- ICU Services.
- Blood Bank.
- Indoor Pharmacy.
- General Check-up.
- 24/7 Emergency Service
- Extensive Operation Theatre

Our Dedicated Departments

- Oral Department
- Cardiac Department
- Childcare Department
- Gynaecological Department
